

PROVIDER QUICK TIPS

#66

EARLY PERIODIC SCREENING, DIAGNOSIS & TREATMENT (EPSDT) & ERROR STATUS CODE 771

•Error Status Code (ESC) 771 is designed to assist providers on correct billing procedures for EPSDT services that were not provided during a screening period. If ESC 771 posts on the claim, please remove the billed amount from the line(s) of service with the 52 or 90 modifiers and replace with \$0 then resubmit the claim.

- If the child was referred to an outside laboratory, the appropriate procedure code and modifier 90, must be documented on the claim with a billed amount of \$0.
- If a service or component that is required for a complete EPSDT screen was not provided, please list the appropriate procedure code with modifier 52 and a billed amount of \$0. Providers are required, at the next screening opportunity, to make every possible effort to complete the service or component that was not provided.

For compensable procedure code/modifier combinations, please refer to the **MA Program Outpatient Fee Schedule** at the following link:

<http://www.dpw.state.pa.us/publications/forproviders/schedules/mafeeschedules/outpatientfeeschedule/index.htm>

Please reference Medical Assistance (MA) Bulletin number 99-10-06, “**Revisions to the EPSDT Program Periodicity Schedule,**” effective January 14, 2010, for additional information:
