

The Department of Human Services has identified procedure codes that reflect services for the diagnostic assessment and treatment of Autism Spectrum Disorder (ASD) and may be subject to Act 62. Providers should confirm with the MA beneficiary's private health insurance which procedure codes are on their fee schedule, and check with the MA Program fee schedule or contact the appropriate MA MCOs to determine which procedure codes are on their fees schedules. The Department will continue to review procedure codes to identify additional codes that reflect services for the diagnostic assessment and treatment of ASD.
